

# YOUR NEW PARTNERS IN DATA-DRIVEN MANUFACTURING

The leaders in leak test, in-process test and manufacturing data have teamed up to provide a wide portfolio of solutions. Harness the power of Industry 4.0 with Cincinnati Test Systems (CTS) and Sciometric.

**LEARN HOW YOU CAN BENEFIT!**

## GET THE RIGHT LEAK TESTER FOR THE JOB

We have combined our leak test products to offer the industry's broadest portfolio so that you can get the leak test solution that meets your requirements.

### ANY TEST TYPE ...

#### PRESSURE / VACUUM DECAY LEAK TESTING

Pressure drop measurement  
Calibrated leak rate measurement

#### FLOW TESTING

Leak test  
Blockage test  
Functional flow measurement

#### TRACER GAS TESTING

Helium, hydrogen, and other gases  
Hard vacuum  
Accumulation  
Sniff testing

### ...TO MEET YOUR LEAK TEST GOAL

Meet cycle time and throughput targets

Improve test reliability and repeatability

Pinpoint the smallest leaks

Achieve traceability and continuous improvement

Test large part volumes more accurately

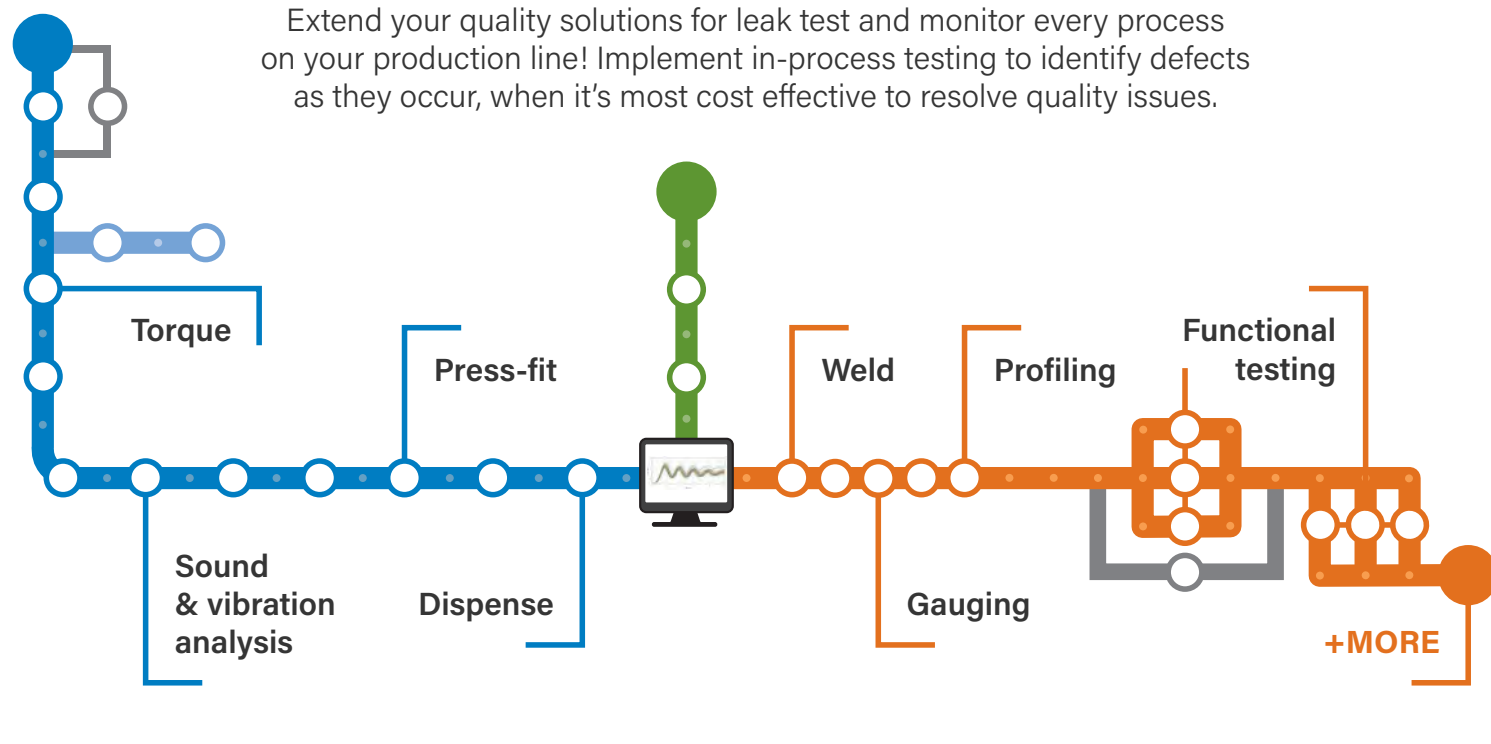

Stay on budget

## WE ARE YOUR LEAK TEST ONE-STOP SHOP

Sentinel Blackbelt | Sentinel Blackbelt Pro | Sentinel I28  
Sentinel C28 | LPC 528 | 3520 Series | TracerMate

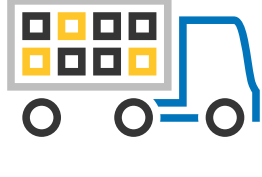

## FROM LEAK TEST — TO ANY TEST!

Extend your quality solutions for leak test and monitor every process on your production line! Implement in-process testing to identify defects as they occur, when it's most cost effective to resolve quality issues.

## DELIVERING A DIFFERENCE WITH DATA INTELLIGENCE

Harness the power of part data to bring Manufacturing 4.0 to your production line, from leak test to any test. We offer practical data management and manufacturing analytics with QualityWorX so that you can start using your data today for visibility and fast issue resolution.

**Fast quarantine resolution**  
Identify root cause and pinpoint affected parts

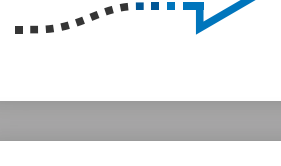

**Improve leak test repeatability**  
Apply analytics to improve test and reduce Gage R

**Faster, more efficient station setup and optimization**  
Use objective data for setup and continuous improvement

**Improve quality & FTT**  
Understand and deal with issues affecting quality

**Increase throughput**  
Data-driven analysis to address bottlenecks

**Batch of 1 traceability**  
Eliminate data silos for full part history

## PUT OUR EXPERIENCE TO WORK FOR YOU

**110+**

combined years in business

**30,000+**

systems installed worldwide

**1B+**

parts and components tested each day

## EXPERTISE ACROSS DIVERSE MARKETS

Automotive

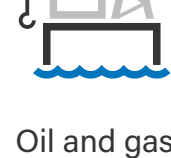

Consumer products

Off-highway

Medical devices

Oil and gas

Energy

USA Canada Mexico South America Caribbean UK Europe India China Korea Australia  
English Spanish Portuguese Chinese Korean German

## GLOBAL SUPPORT

## TOGETHER, WE ARE YOUR SOURCE FOR INDUSTRY 4.0
