

Product Discontinuation Notice

sigPOD 1200 DeviceNet Card

February 13, 2017

Re: sigPOD® 1200 DeviceNet Card

As a result of a supplier discontinuation, Sciometric is discontinuing the optional DeviceNet fieldbus card for the sigPOD 1200 models effective today. Unfortunately, we are unable to provide a last time buy of the fieldbus card due to a lack of supplier inventory.

Please note this notice affects only the DeviceNet card within the sigPOD.

Key Dates

Product Discontinuation Notice	February 13, 2017
Last Time Buy (date for last order acceptance)	n/a
Warranty Support until	As per Terms and Conditions
Technical Support (on a best effort basis) until	February 13, 2018*

** Our ability to provide support on the DeviceNet card is dependent upon the third-party vendor. Issues will be handled via Sciometric's RMA process and we will coordinate with the support with the supplier.*

Alternative Product Options

With more suppliers moving to soft fieldbuses, the Sciometric sigPOD 1200 models supports the industry's widest selection of the most common communication options such as PROFINET and EtherNet/IP. Though we cannot service or replace DeviceNet cards, sigPOD units can be updated remotely to one of these new fieldbuses through the purchase of the appropriate license. Please note some configuration of your application will be required. Contact us to review your requirements.

More Information

If you have any questions about this notice or would like to learn more about moving to a different type of fieldbus, please contact your Sciometric sales representative, call us directly at 1-877-581-0112 or email inquiries@sciometric.com.
