### Re: sigPOD® 1402, 1404, 1408

Sciometric is streamlining and simplifying the sigPOD family of products by discontinuing the sigPOD 1400 line, which includes the 1402, 1404 and 1408 models. Improvements to other models within the sigPOD family have made the 1400 redundant. The intent of this notice is to inform our valued customers of the discontinuation and extend an opportunity for last buy to meet your requirements.

### Key Dates

Product Discontinuation Notice	January 31, 2013
Last Time Buy (date for last order acceptance)	<b>July 31, 2013</b>
Warranty Support until	<b>As per Terms and Conditions</b>
Technical Support until	<b>July 31, 2016</b>

Customer service is a Sciometric priority. Please note that while Sciometric will endeavor to continue supporting legacy systems beyond the dates noted above, this support cannot be guaranteed.

### Alternative Product Options

The Sciometric sigPOD® family offers a comprehensive lineup of powerful and versatile products to meet your test and monitoring needs:

**sigPOD 1202/1204** – the original sigPOD combines NEMA packaging with high performance, flexibility, and reliability. Available in 2 or 4 channel configurations.

**sigPOD 1302** – low cost 2-channel solution available with or without integrated display

**sigPOD 1508** – reduced in price to match the outgoing sigPOD 1408, the 1508 provides 8 high speed analog channels while adding 2 analog outputs

Visit our Web site at [www.sciometric.com](http://www.sciometric.com) or contact Sciometric for more information on these products.

### More Information

While we regret any issues this discontinuation may cause, we believe that the alternate models in the sigPOD family will address your monitoring and test requirements. If you have any questions about this notice or our products, please contact your Sciometric sales representative, call us directly at 1-877-581-0112 or email [inquiries@sciometric.com](mailto:inquiries@sciometric.com).
